

ATLANTIC HEALTH DATABASE

APPENDIX B

HEALTH OUTCOMES

LIST OF SYMBOLS

—	Nil or zero.
--	Number is too small to be expressed.
·	Data are not available for any reference period. This symbol is used when the figure has never been published for any reference period. The symbol implies that the underlying time series does not exist, but theoretically could exist.
..	Data are not available for a specific reference period. This symbol is used when the time series exists but the figure is not published for a specific reference period.
...	Not applicable. This symbol is used when an entry for the table cell is not logically possible. For example, there could not be any data for "legal drivers under 15 years of age" or "women with prostate cancer." In such cases, no time series will exist.
×	Used to rank a region relative to a province or Canada. In tables showing percentages, × denotes a lower percentage than the province or nation. In tables showing rates of occurrence, × denotes a less favourable rate.
✓	Used to rank a region relative to a province or Canada. In tables showing percentages, ✓ denotes a higher percentage than the province or nation. In tables showing rates of occurrence, ✓ denotes a more favourable rate.
-	In tables comparing a region relative to a province or Canada, “-” denotes that there is no data available for comparison
^E	Data with a coefficient of variation (CV) from 16.6% to 33.3% are identified by ^E and should be interpreted with caution.
F	Data with a coefficient of variation (CV) greater than 33.3% were suppressed due to extreme sampling variability. When a figure is "too unreliable to be published," the data point is suppressed and the symbol F appears in the data cell.
s	Used in tables ranking regions relative to a province or Canada. In tables showing percentages, s denotes that the percentage is equal to province or nation. In tables showing rates of occurrence, s denotes an equal rate.
x	Figures have been suppressed to meet the confidentiality provisions of the <i>Statistics Act</i> .

LIST OF TABLES

Table 55. Self-rated health, by sex, household population aged 12 and over, Canada, Atlantic Provinces and Health Districts, 2000/01	7
Table 56. Self-rated health, by sex, household, population aged 12 and over, Canada, Atlantic Provinces and Health Districts, 2000/01	9
Table 57. Self-rated health, by sex, household population, Canada and Atlantic Provinces, 1994/95-1998/99	12
Table 58. Self-rated health as "very good" or "excellent" in 1994/95 and rating in 1996/97 and 1998/99, by sex, household population aged 12 and over, Canada and Atlantic provinces	15
Table 59. Functional health status, by sex, household population aged 12 years and over, Canada, Atlantic Provinces, and Health Districts, 2000/01	16
Table 60. Functional health status, by sex, household population aged 12 years and over, Canada, Atlantic Provinces, and Health Districts, 2000/01	17
Table 61. Functional health status, by sex, household population aged 4 years and over, Canada and Atlantic Provinces, 1994/95-1998/99.....	18
Table 62. Life expectancy - abridged life table, at birth and at age 65, by sex, Atlantic Provinces compared to Canada, 1999	19
Table 63. Life expectancy - abridged life table, at birth and at age 65, by sex, Canada and Atlantic Provinces, 1999	19
Table 64. Life expectancy - abridged life table, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	20
Table 65. Life expectancy - abridged life table, at birth and confidence interval, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	21
Table 66. Life expectancy - abridged life table, at age 65 and confidence interval, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	22
Table 67. Disability-free life expectancy - abridged life table, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	23
Table 68. Disability-free life expectancy - abridged life table, at birth and confidence interval, by sex, Canada, Atlantic Provinces, and Health Districts 1996	24
Table 69. Disability-free life expectancy - abridged life table, at age 65 and confidence interval, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	25
Table 70. Potential years of life lost rate per 100,000, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	26
Table 71. Potential years of life lost - all causes of death (ICD-9 001-799, E800-E999), rate per 100,000 population and confidence interval, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	28
Table 72. Potential years of life lost - all cancer deaths (malignant neoplasms) (ICD-9 140-208), rate per 100,000 population and confidence interval, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	29
Table 73. Potential years of life lost - all circulatory disease deaths (ICD-9 390-459), rate per 100,000 population and confidence interval, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	30
Table 74. Potential years of life lost - all respiratory disease deaths (ICD-9 460-519), rate per 100,000 population and confidence interval, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	31
Table 75. Potential years of life lost - all unintentional injury deaths (ICD-9 E800-E929, excluding 870-879), rate per 100,000 population and confidence interval, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	32

Table 76. Potential years of life lost - all suicides (ICD-9 E950-E959), rate per 100,000 population and confidence interval, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	33
Table 77. Activity limitation, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01.....	34
Table 78. Activity limitation, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01.....	35
Table 79. Activity limitation, by sex, household population aged 12 and over, Canada and Atlantic Provinces, 1994/95-1998/99	36
Table 80. Injuries causing limitation of normal activities, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01.....	37
Table 81. Injuries causing limitation of normal activities, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01.....	38
Table 82. Disability days in a two-week period, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01	40
Table 83. Disability days in a two-week period, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01	41
Table 84. Disability days in a two-week period, by sex, household population, Canada and Atlantic Provinces, 1994/95-1998/99.....	42
Table 85. Pain or discomfort that affects activities, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts 2000/01	43
Table 86. Pain or discomfort that affects activities, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01	44
Table 87. Pain or discomfort that affects activities, by sex, household population aged 4 and over, Canada and Atlantic Provinces, 1994/95-1998/99	46
Table 88. Severity of pain or discomfort, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and, Health Districts, 2000/01	48
Table 89. Severity of pain or discomfort, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and, Health Districts, 2000/01	49
Table 90. Severity of pain or discomfort, by sex, household population aged 4 and over, Canada and Atlantic Provinces, 1994/95-1998/99.....	51
Table 91. Self-esteem, by sex, household population aged 12 and over, Canada and Atlantic Provinces, 1994/95.....	53
Table 92. Self-esteem, by sex, household population aged 12 and over, Newfoundland and Labrador Health Districts, 2000/01.....	54
Table 93. Risk of depression, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01.....	55
Table 94. Risk of depression, by sex, household population aged 12 and over, Canada, Atlantic Provinces, and Health Districts, 2000/01.....	56
Table 95. Risk of depression, by sex, household population aged 12 and over, Canada and Atlantic Provinces, 1994/95-1998/99	58
Table 96. Suicide (ICD-9 E950-E959), age standardized rate per 100,000, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	60
Table 97. Suicide (ICD-9 E950-E959), crude count and confidence interval, by sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	61
Table 98. Suicide (ICD-9 E950-E959), crude rate per 100,000 population and confidence interval, by sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	62

Table 99. Suicide (ICD-9 E950-E959), age-standardized rate per 100,000 population and confidence interval, by sex, Canada, Atlantic Provinces, and Health Districts, 1996	63
Table 100. Teen pregnancy, by outcome of pregnancy and age group, count and rate per 1,000 women aged 15 to 19, Canada, and Atlantic Provinces, 1998.....	64
Table 101. Low birth weight (less than 2,500 grams) as a percentage of all live births, by infant sex, Canada, Atlantic Provinces, and Health Districts, 1996 and 1997	65
Table 102. Low birth weight (less than 2,500 grams) as a percentage of all live births and confidence interval, by infant sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	66
Table 103. Low birth weight (less than 2,500 grams) as a percentage of all live births and confidence interval, by infant sex, Canada, Atlantic Provinces, and Health Districts, 1997.....	67
Table 104. Infant and perinatal mortality, rate per 1,000 live births, by infant sex, Canada, Atlantic Provinces, and Health Districts, 1996.....	68
Table 105. Infant mortality, rate per 1,000 live births and confidence interval, by infant sex, Canada, Atlantic Provinces, and Health Districts, 1996	69
Table 106. Perinatal mortality, rate per 1,000 births (including stillbirths) and confidence interval, by infant sex, Canada, Atlantic Provinces, and Health Districts, 1996	70
Table 107. Age-standardized rate for hysterectomy provided to inpatients in acute care hospitals, per 100,000 women age 20 and older, Canada, Atlantic Provinces, and Health Districts, 2002.....	71
Table 108. Caesarean section rate as a percentage of live births for Canada, Atlantic Provinces, and Health Districts, 2002	72
Table 109. Vaginal-birth-after-Caesarean-section (V-BAC) rate as a percentage of females with previous C-section, Canada, Atlantic Provinces, and Health Districts, 2001	73
Table 110. Reported genital chlamydia rates per 100,000 in Canada and Atlantic Provinces by sex, 1995-2001	74
Table 111. Breastfeeding practices, mothers aged 15 to 49, Canada and Atlantic Provinces, 1994/95-1996/97	75
Table 112. Breastfeeding practices, by age group of recent mothers, mothers aged 15 to 49, Canada, 1994/95-1996/97	76

Table 55. Self-rated health, by sex, household population aged 12 and over, Canada, Atlantic Provinces and Health Districts, 2000/01

Life expectancy and related confidence intervals (CI) are based on Chiang's method (Chiang CL. The Life Table and its Applications. Robert E. Krieger Publishing Company, Malabar, Florida, 1984). Wide confidence intervals indicate high variability, thus, these numbers should be interpreted and compared with due caution.

Confidence intervals for Potential Years of Life Lost rates were produced using the Spiegelman method. Source: Spiegelman M. "Introduction to Demography", Revised Edition. Cambridge, Massachusetts: Harvard University Press, 1968, page 113, formula 4.29. Wide confidence intervals indicate high variability, thus, these rates should be interpreted and compared with due caution.

Confidence intervals for Potential Years of Life Lost rates were produced using the Spiegelman method. Source: Spiegelman M. "Introduction to Demography", Revised Edition. Cambridge, Massachusetts: Harvard University Press, 1968, page 113, formula 4.29. Wide confidence intervals indicate high variability, thus, these rates should be interpreted and compared with due caution.

Table 76. Potential years of life lost - all suicides (ICD-9 E950-E959), rate per 100,000 population and confidence interval, population aged 0 to 74, by sex, Canada, Atlantic Provinces, and Health Districts, 1996

Nova Scotia	747	24.0	240	12.9	507	40.3
New Brunswick	668	26.4	195	12.9	473	46.4
Induced abortions						
Canada	20,859	20.9	7,741	13.0	13,118	32.8
Newfoundland and Labrador	204	9.7	89	7.1	115	13.7
Prince Edward Island	x	5.6	x	3.6	x	8.7
Nova Scotia	477	15.3	195	10.5	282	22.4
New Brunswick	253	10.0	98	6.5	155	15.2
Fetal loss						
Canada	1,008	1.0	436	0.7	572	1.4
Newfoundland and Labrador	29	1.4	11	0.9	18	2.1
Prince Edward Island	x	1.0	x	1.3	x	0.5
Nova Scotia	12	0.4	6	0.3	6	0.5
New Brunswick	34	1.3	19	1.3	15	1.5

Total pregnancies equal the sum of live births, fetal losses and induced abortions. Fetal loss includes stillbirths and hospitalized cases of spontaneous abortions (miscarriages), illegal abortions and unspecified abortions. Induced terminations of pregnancy performed on Canadian residents in hospitals and clinics in Canada.
